What is Fund the Future?

Fund the Future is a group of volunteers consisting of parents, business owners, non-profit organizations, citizens, school staff and faculty. The main goal of this group is to raise money to financially support our school with the necessary funds to pay for expenses that are impossible for the school to pay due to declining

2010 Les Cheneaux Kayak Race Registration

enrollment and state cuts. Fund the Future is fighting to eliminate the school's deficit so that there will be no elimination of any educational programs and any further teaching staff. Great strides have been taken to provide college credit courses and the teaching staff that is necessary to put the Les Cheneaux Community School in a position to be the School of Choice. These courses provide our children with college credit hours and are a cost savings for the parents. The college credit courses are also a means to generate income for the school by providing other local schools access to these courses via Web TV. The Les Cheneaux Kayak race is a means to provide the community with an outdoor activity utilizing the beautiful islands and to generate money for the school.

Save the Date for Next Year's Race

JULY 9, 2011
